Brain tumours now account for more deaths among children and those under 40 than any other cancer.

Join others and raise sponsorship for your chosen brain tumour charity and help us find a cure for this devastating disease.

The 2010 "Walk around the World" for Brain Tumours is a project of the International Brain Tumour Alliance (IBTA) to encourage people to undertake sponsored walks to raise awareness about brain tumours and to donate the mileage to the "World Walk's" target of circling the earth seven times at the equator (175,000 miles). The "World Walk" symbolically unites all those around the globe whose lives have been touched by a brain tumour.
